# ABOUT US

A highly motivated  
**solution  
generating,  
competitive and  
qualified team...**

Established in 2007, DeltaMed Ajans ve Dil Hizmetleri A.Ş. has set as a goal to work with experts in order to achieve best performance.

We continue to be a company that makes correct planning, takes proper financial and administrative decisions, sets the right goals, adopting this policy and always standing behind the services we provide

# ISO 17100 TRANSLATION SERVICES MANAGEMENT SYSTEM

At DeltaMed we use  
ISO 17100 Translation  
Services Management  
System.

## What is the ISO 17100 Translation Services Management System?

- The ISO 17100 standard was introduced by the International Standards Organization in 2015, based on the EN 15038 standard.
- The ISO 17100 standard is intended to prove that translation service providers deliver services that meet the requirements of this standard. In order to provide a quality translation service, these organizations must improve their resources and business processes in accordance with this standard.

## Our process in brief;

- Project registration and reporting
- Sharing the budget and delivery time with the client
- Sharing the project with an expert translator after approval
- Following completion of the translation, performing Quality Control and Proofreading based on the specific terminology of the company
- Secure storage and archiving of all data
